PRESERVE. PROTECT. PREVENT.™

Sprayon® SP™702 Engine Degreaser was especially formulated to clean all mechanical engines, machinery and tools. This biodegradable formula will remove dirt, grease and varnish deposits by simply spraying on and flushing the surface with water. When flushed with water it emulsifies so that the contaminants are carried away, leaving the surface clean. The high velocity valve delivers the cleaning agent to intricate mechanical parts.

SPECIALTY PRODUCTS

USES

- Automotive and marine engines
- Mechanical equipment
- Shop equipment
- Machinery
- Tools
- Greasy concrete floors

APPLICATION

Use in a well ventilated area. Shake well before using. Spray a heavy coat on surface to be cleaned until all grease and dirt are thoroughly wet. Allow to stand 10 -20 minutes. Flush with water and then wipe with a clean rag. A second application may be needed. For best results, use at room temperature (70°F-90°F).

PERFORMANCE

- Biodegradable formula
- Equipped with high velocity spray valve
- Clings and penetrates to metal surfaces
- Equipped with Spray Anyway™ Valve
